

SCHOOL SAFETY

Safe Drop-off & Pick-up

DO...

Pull into a passenger loading zone for drop-off. IF there is no passenger loading zone, or no space is available: Drive around the block until one becomes free, or park in a legal parking space and walk together a short distance.

Drop your child off at the curb on the school side of the street rather than crossing into incoming traffic or having your child run across the street.

Have your child sit on the passenger side with their backpack so they can get out of the car easily, quickly and safely.

Cross the street with your child: Cross only at corners. **Train** your child to look all ways as they cross a street.

DON'T...

Don't park in the loading zone. You can wait in the zone for 5 minutes but you must stay with your car. **FINE: \$88**

Don't double park, which creates an unsafe situation for children who are often difficult to see between cars. **FINE: \$78**

Don't block driveways. **FINE: \$88**

Don't make U-turns in the middle of the block. **FINE: \$201**

Don't let your child out on the traffic side of the car. Pull over to the curb and teach your child to be a safe pedestrian.

Don't block a crosswalk. **FINE: \$88**

Don't block a curb ramp. **FINE: \$253**
