No response: 8

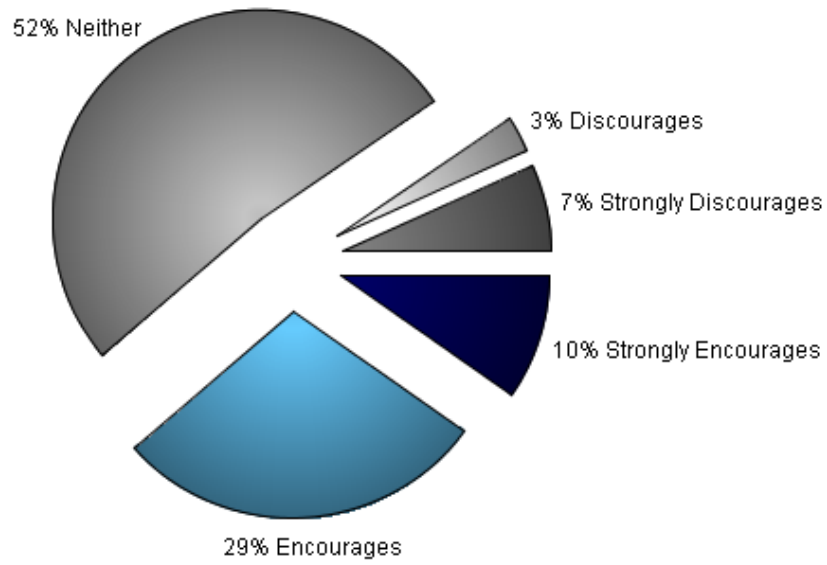

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

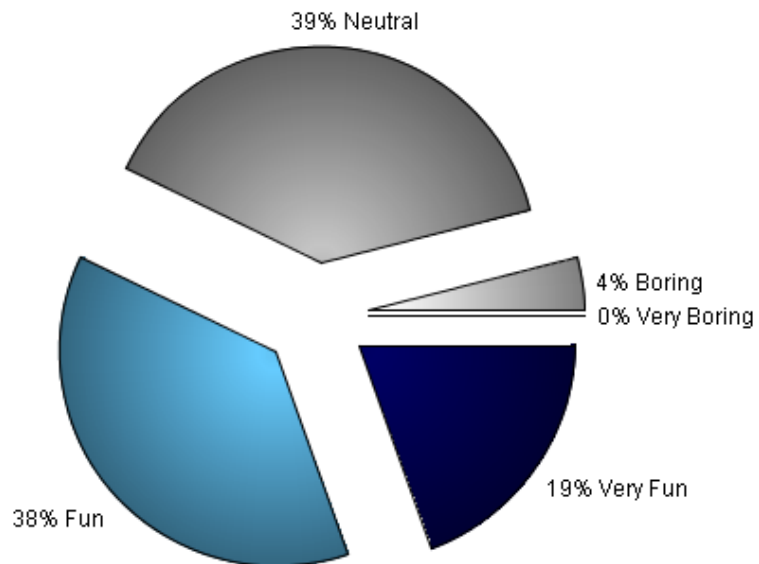

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

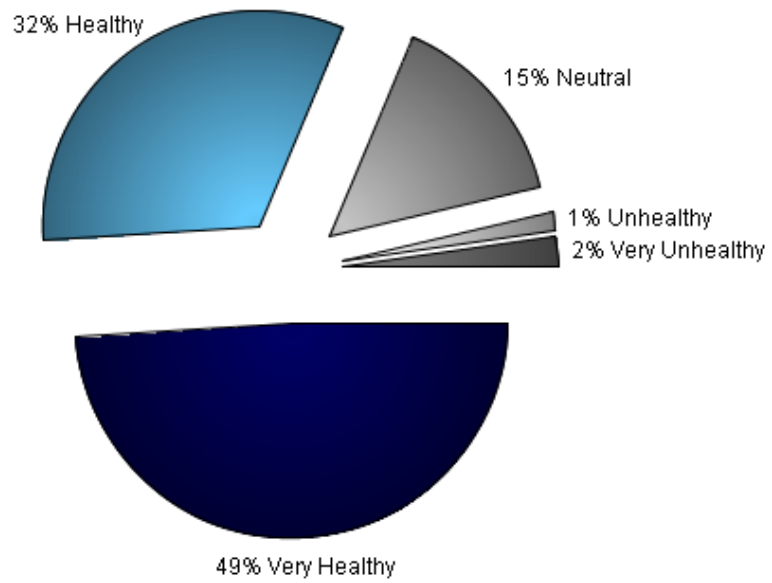

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
593743	Too many hills and too much violence in area. Not going to take that risk with my child.
593755	I just don't feel safe letting my child walk alone at any age. Maybe in high school with a group of kids.
593794	Please I need to request a security guard to watch after the kids for their safety.
593703	I would love for them to walk or bike but I have to go to work. It's inconvenient.
593711	My children used to walk to school with us when we lived in San Diego last year. We would love to walk or bike, but the route is too long to walk, too hilly to bike for our young kids. We thought about a bike trailer, but are unsure. Lots of traffic and people in the neighborhood are TERRIBLE drivers. In the past month and a half we have almost been hit a few times en route to or from school while driving.
593785	My children WILL NOT bike to school on their own, but I have no problem biking to school with them.
593823	I am very happy that when we take the bus to school we walk a block to the bus stop and my child loves the walk and it's very healthy.
593832	As the father of the family I am happy that there are people who are interested in helping our children and our schools
593741	Up hill to school.
593747	I would like to say, for the safety of our kids please don't let kids ride their bikes to school or walk. Let us parents do something to make sure our kids is safe.
593802	I hope this school will be great for my daughter
593716	Living by the hilly road is so dangerous for the kids to walk or bike to school. Also school street is so narrow I don't feel safe for my child or other student to walk or bike to school.
593781	Walking/Biking is a great idea. Safety is a main concern. My child gets exercise in other activities.
593814	It would help a lot to have crossing guards so that the parents would have a greater sense of security letting their children walk to school
593830	It's good but it also is scary for parents.
593799	We live in a high crime neighborhood and I would never let my child bike or walk to school
594823	No additional comments.
593752	No bike to school.
593759	5th grade she would be 3 blocks from home/school. She will be okay.
593701	Live an hour away.
