

Parent Survey Summary

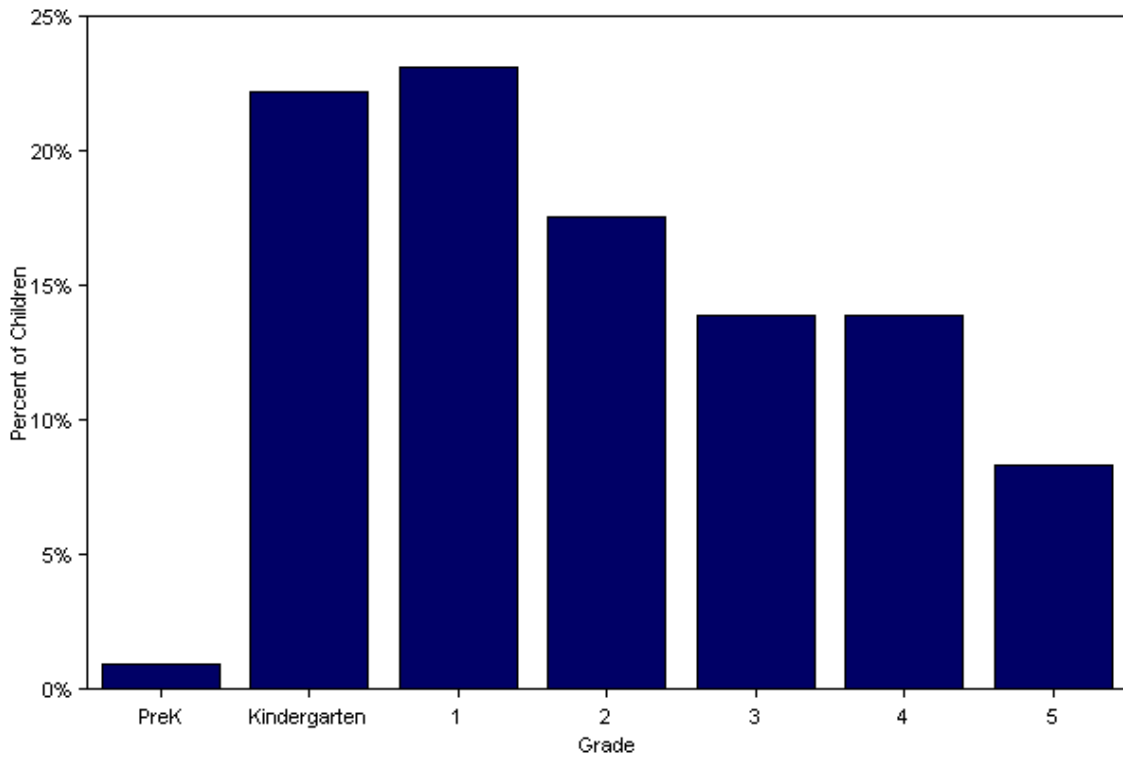

Program Name:	San Francisco Department of Public Health	Month and Year Collected:	September 2010
School Name:	Marshall Elementary School	Set ID:	4515
School Enrollment:	242	Date Report Generated:	04/26/2011
Enrollment within Grades Targeted by SRTS Program:	242	Number of Questionnaires Analyzed for Report:	108
Number of Questionnaires Distributed:	242		

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

Grade levels of children represented in survey

Child's Participation in After School Programs	44%	41%
Number of Respondents per Category	80	17

No response: 11

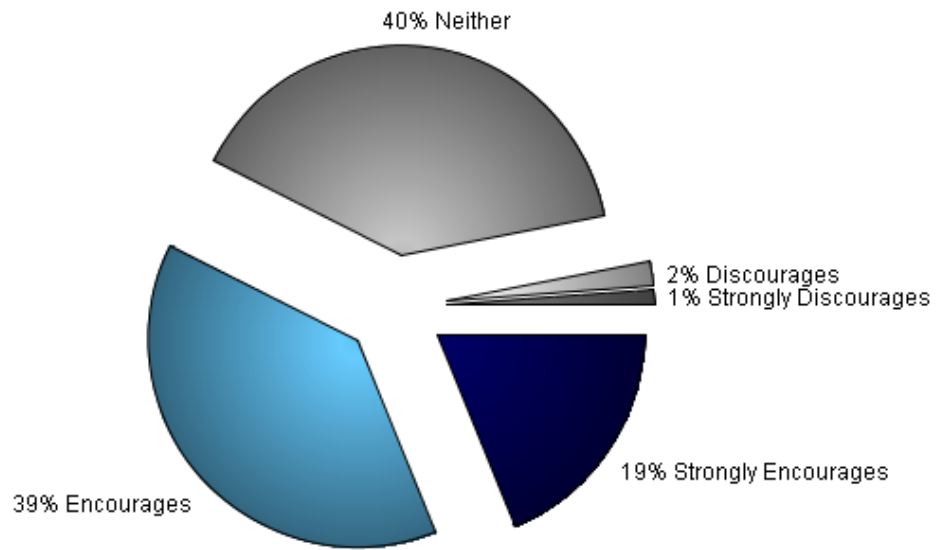

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

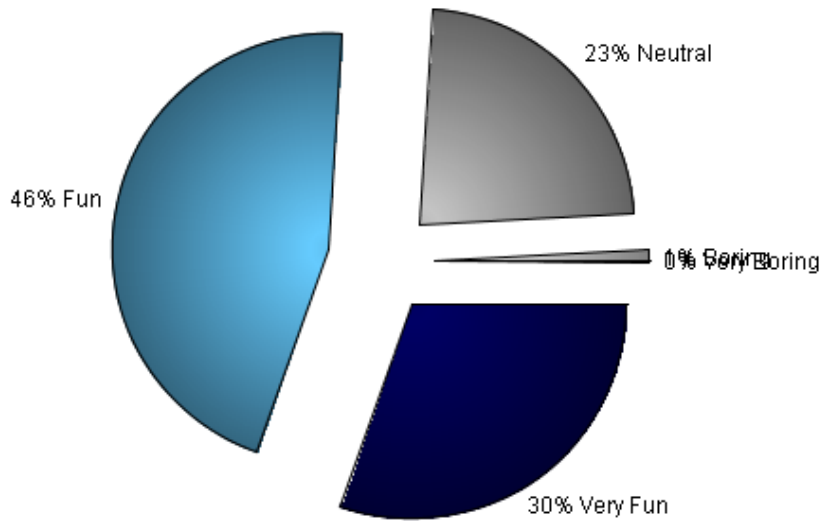

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

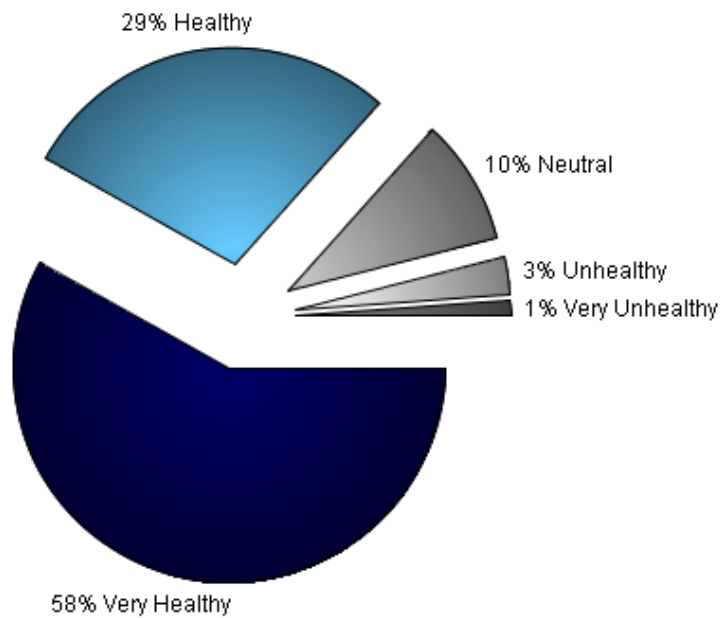

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
587042	It would be interesting and fun if in the schools they taught the children how to ride a bicycle.
586885	In Question #10 & 11 I would say yes if my child was older. She is only in K at this time.
586984	We ride bikes with our daughter on sidewalks only. I don't know when (if ever!) I will feel comfortable allowing her to ride on streets or even bike lanes.
587024	I walk to school with my daughter every day of the week
587028	Yes we can! A great example would be for all schools to encourage children to bicycle to school for their health and the school with the most participants wins bicycles
587043	It wouldn't feel safe to send my daughter alone to school, the drivers don't show any respect and drive very fast. I would like it if there were people helping when they cross the street.
587048	I would like it if my daughter rode a bicycle to school but it scares me because there isn't much security on the streets.
587063	My daughter uses a bicycle when we are together on the street but I am always a little scared because some drivers don't pay attention to either kids nor adult - and for this reason I am always fearful
587085	My daughter only walks to school because it is closeby
586989	At present we walk/bike together. We enjoy that.
587008	My son lives in 2 homes. One in the city and one in Oakland. The neighborhood near Marshall is too violent for any child to walk to school
587014	Only that when there is a crosswalk the cars don't always stop and let people cross the street.
587020	I'm happy to have my child in this school because it is close to my house.
587044	For me it is very healthy to walk to school every morning
587072	I would say that they put in a STOP sign by the side of the school because when the children get out they can't cross the street because the cars are going too fast
587074	The school yard is very safe but in the area around the school there are homeless people who use harmful substances and it is not recommended that a child witness this happening.
587083	I would like it if the streets were safer for people who walk
586886	The main reason I would not allow my child to walk/bike to/from school while attending this school is the distance
587006	My child is too youth to let walk alone to school at this point.
587027	Every thing is good, I only would prefer if my daughter never walk to school alone.
587041	It's good for your health to walk and the doctor recommends it.
587062	While I would like it if my son walked to school, he doesn't walk because we live too far away and he doesn't bike to school because he doesn't have a bicycle. That is why we go to school on the bus or Bart
587065	There needs to be more crossing guards so that parents feel more assured thatt our children will cross the streets safely.
587081	It would be fun for my daughter to ride a bike to school but we live too far and the traffic make is not very safe
587003	School Buses are a waste of money. Kids should be able to walk to a neighborhood school. Weird city.
587035	By Capp St. and 16th there is a bad smell of urine and feces.
587080	By Capp St. and 16th there is a strong smell of urine and feces.
587055	I come from a very poor and large family
586982	I would never allow my elementary school-aged daughter to go to school on her won in SF.
