No response: 16

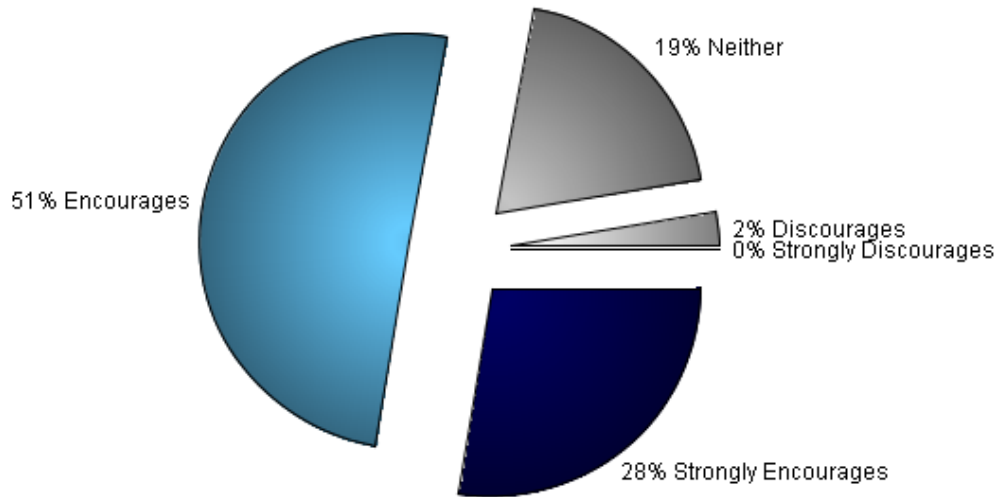

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

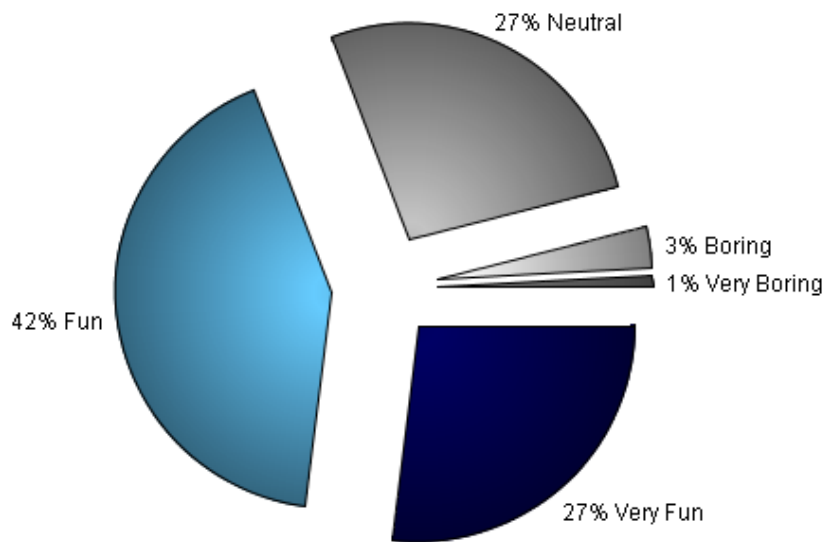

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

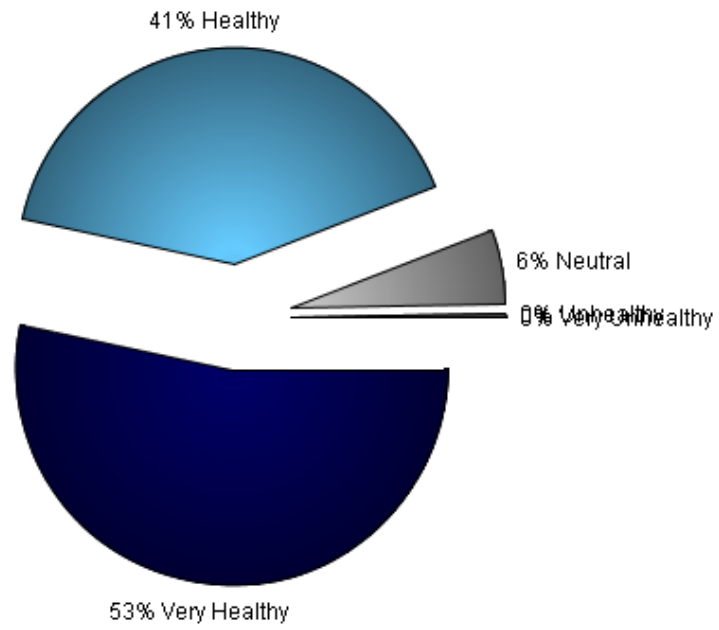

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

621157	I think biking or walking to school is ok but with an adult. Very important
621663	Well, school should have school bus drop each kid off right in front of their house. Plus is dangerous to walk home at night after the after school plus it's dark plus a lot of crime and speed of people driving are bad.
621678	Walking or biking is great for kids!!!!!!
621163	Well, school should have school bus that drops each student off right in front of their house, for that area, because walking home from after school program is unsafe is dark and late plus there are a lot of crime out there. Plus the speed of people driving are bad.
621680	In reality, I would like it if my son could frequently participate in this activity, but unfortunately it is not very safe to walk from where we live.
621686	I think it's healthy for kids to walk to school as long as it's safe and the weather permits it.
622576	I like the fact that ER Taylor encourages students to walk/bike to school. I would love to participate, but since the it takes for me to walk back home would delay my work start time, I couldn't make it. But if it started somewhere besides my house, I might be able to join.
622622	Safety Driving on the road, parking at school, school has enough medical care when children get hurt driving a bike
