Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

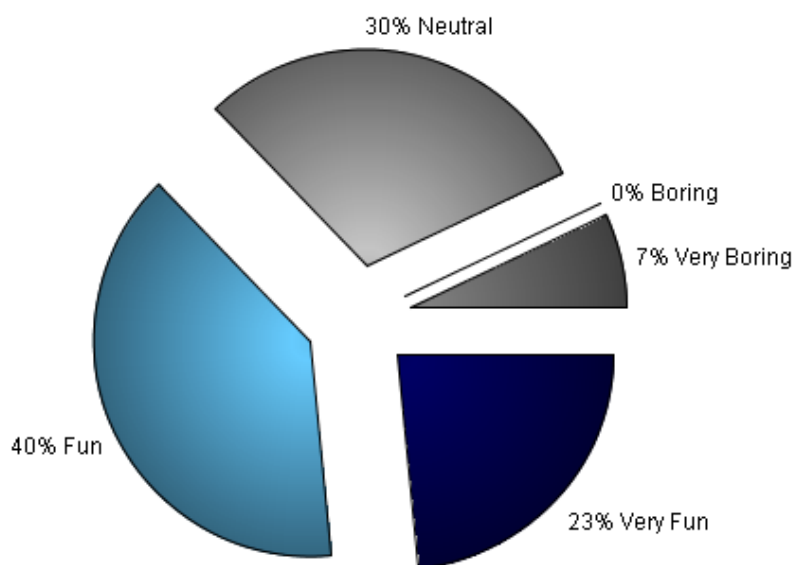

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

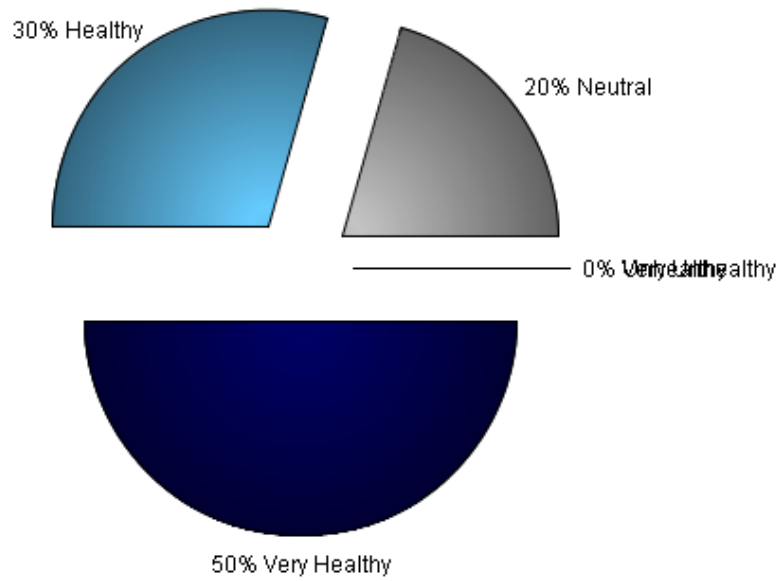

**Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school**

**Parents' opinions about how much fun walking and biking to/from school is for their child**

**Parents' opinions about how healthy walking and biking to/from school is for their child**

SurveyID	Comment
624264	Proper after care is a big decision in reasons for not walking to/from school
624637	My child is too young to walk or bike to school and it's more convenient for me to drive them. I am currently pregnant and it's hard to go up hills
624237	School is located on a narrow street. From my house there is a big hill. Some parents are not careful about driving. I don't feel it's safe for my kid to walk or bike to school.
